TO: All Meade County Water District (MCWD) Customers

FROM: Brett Pyles, General Manager MCWD

SUBJECT: Wholesale Water Rate Increase

On October 18, 2022 MCWD was notified by Hardin County Water District No.1 that our wholesale water rate would increase from \$2.36 per one thousand gallons to \$3.33 per one thousand gallons or a 41.2% increase. MCWD will be filing the necessary paperwork with the KY Public Service Commission (PSC) to increase our rates to reflect this change. MCWD will NOT receive any additional dollars for this increase. It will be a 100% pass through. While we at MCWD strive to keep rates as low as possible, we simply cannot afford to absorb this increase and will have to pass on to our customers. We expect the revised rates to take effect December 1, 2022, pending KY PSC approval. Please feel free to contact our office at (270)422-5006 if you have any questions.
